What we do

Clever people, customer focused, selling expertise and solutions, global reach, energy, power and commodities markets

Delivering excellence through total life of asset services ■ Consultancy ■ Engineering ■ Project management

How we do it

Vision:
By continually delivering excellence, we inspire trust and loyalty in our customers

Values:
Sustainably delivering **excellence** to our customers by:
Believing in **people**
Never compromising on **safety**
Acting with **integrity**

Sustainable approach:

ROBECOSAM
Sustainability Award
Silver Class 2014

We are committed to supporting the communities in which we work and society in general. In 2013 we:

£400k

Donated over £400,000 to good causes and charitable institutions worldwide

SOS

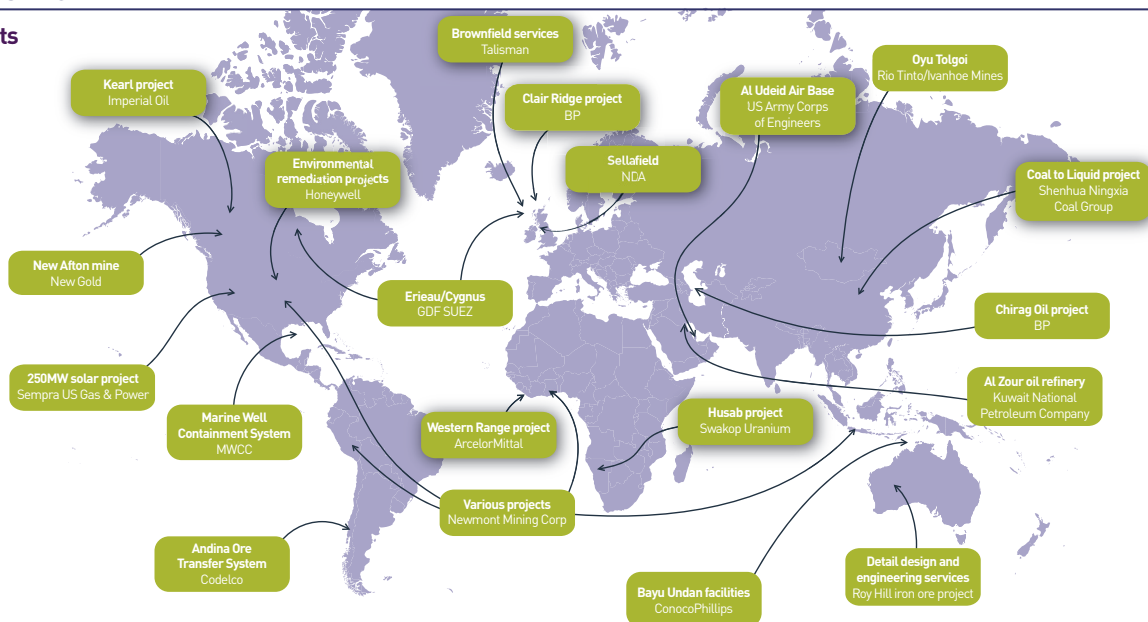

Supported our global strategic charity for the 6th year running, providing disaster support in Syria and the Philippines

STEM

Continued to promote STEM in educational partnerships with our local schools and universities, around the world

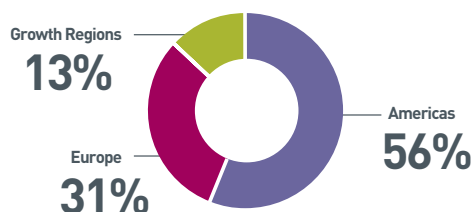

Where we work

Recent projects

Charts reflect 2013 full year results

Revenue by geography

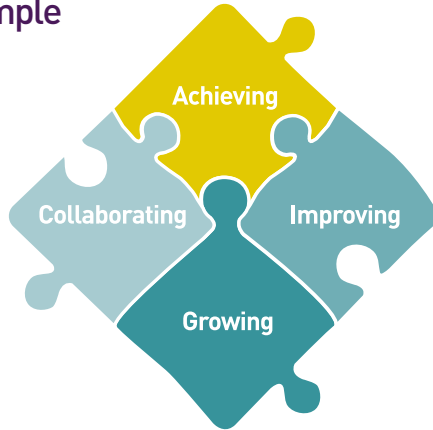

Revenue by market

Our growth focus

Our strategy for 2015 and beyond is very simple

We want to grow, by:

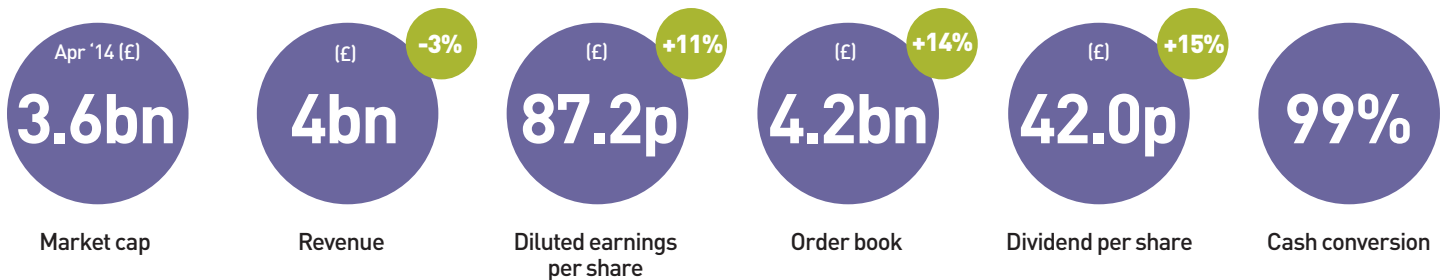

- **Enhancing** our position in our four chosen markets: oil & gas, mining, clean energy and environment & infrastructure
- **Increasing** our capabilities and the range of services we are offering to our customers
- **Expanding** our geographic presence, particularly in the Growth Regions
